

WINESMITHS

— YALUMBA —

— CABERNET SAUVIGNON —

In 1849 a young man by the name of Samuel Smith, with a passion for horticulture, purchased 30 acres of land in the newly settled Angaston. He planted a vineyard and an orchard, which grew to bear fruit and his family prospered. 170 years of winemaking and horticulture later,

the elm trees he planted still overlook Smith's original garden and his great-great-grandson continues the family tradition of winemaking, horticulture and craftsmanship. Five generations of Winesmiths have created this timeless range of premium cask wines.

Mouth-watering cherry, plum and coffee flavours.

TASTING NOTE

The dark berry, tobacco and subtle oak aromas reveal pepper and cherry flavours, followed by a satisfying plum and coffee finish. Cabernet Sauvignon is one of the world's most popular varieties and works brilliantly when paired with traditional beef or vegetarian homemade lasagne.
